Work Experience

Jeel tech | batna, Algeria

June 2020 - May 2024

Full-Stack Developer

May 2021 - May 2024

- Designed and implemented web frontends and backend services in an agile team using React.js, GraphQL, Node.js, Docker, and SQL, ensuring high-quality and innovative solutions.
- Implemented a server-side rendering solution with Next.js, reducing page load times by 50% and enhancing SEO performance
- Integrated real-time data analytics dashboards using GraphQL and Apollo, enabling dynamic business insights and faster decision-making.
- Created a CI/CD pipeline, reducing time-to-deployment.
- Implemented caching strategies to minimize server requests, reducing costs and enhancing performance.

Frontend Developer

June 2020 - April 2021

- Developed scalable code for web applications, prioritizing user experience.
- Utilized serverless architecture to reduce costs and improve scalability
- Implemented complex React components and Redux workflows, improving UI efficiency by 70%.

Dev-Eons | Algies, Algeria

August 2018 - April 2020

Full-Stack Developer

- Implemented responsive designs for various devices, maintaining a consistent user experience.
- Integrated third-party libraries and APIs within React applications to enhance functionality.
- Demonstrated expertise in creating responsive websites from scratch.

Education

Bachelor's degree, Computer Science

University of Batna 2 | Batna, Algeria | October 2015 - June 2018
